

COMPANY	PROJECT
	<p>NIIT Technologies is a global IT solutions organization, with a footprint that spans North America, Europe, Asia and Australia. Entrepreneurs did a marketing study for them at the Colombian market, identifying potential buyers for their products. In the year 2005 Entrepreneurs organized an export mission for them in Colombia to visit all the clients previously identified.</p>
	<p>Entrepreneurs Colombia created and developed an international trade company whose aim was to commercialize home furnishing and decoration products and crafts originating from India and Kenya, with its main focus in Latin American markets, primary in Colombian stores.</p>
	<p>Teamcom AS is a leading supplier of dedicated networks to the utility and offshore markets. Entrepreneurs did a market screening to identify key information and profile of some potential partners. We booked and prepared the meetings with decision makers in Colombia.</p>
	<p>TeakStar is a company created by us in order to commercialize wood (Mainly Teak) among Africa, India and Colombia, with the administrative support based on Norway. The project consisted in setting up all the structure to export wood originating in diverse countries of the east African and Latin American countries and sell them in India.</p>
	<p>Global Nuts is a Kenyan company, responsible for the commercialization of dry macadamia nuts to European and the Middle East markets. The company started working with the farmers, managing the supply chain, improving the quality of the products and processes to comply with the international standards of quality through its own processing plant.</p>
	<p>Bancolombia is one of the main operating banks in Colombia. We developed support activities of positioning and monitoring for International transfers in the United States and Spain</p>
	<p>Colombian company dedicated to design and production of equipment for elaboration, exhibition and sales of bakery products for pastry and pizza shops and restaurants. We had carried out a benchmarking study, design and implement market penetration strategies in U.S. market.</p>
	<p>NOVASOFT LTD is a software development company Software. Entrepreneurs did a detailed market research for NOVASOFT, identifying business opportunities to help them to build up an entrance strategy in Peru.</p>
